Comments	<input type="text" value="There are a number of reasons. The noise of construction works. There's already loud machine sounds flattening the land which is unbearable. Complaints were made. The volume of traffic and disruption of the road. There are residents working from home and will impact on working in a busy environment. The wildlife has already been affected with the flattening of the land and this will further ruin their habitat. Farm land owners have commented on this. The infrastructure of broadband services is dire already and will not have the capacity for anymore properties."/>
