Comments	<input type="text" value="With due consideration for the impact this development will have on the existing residents of firswood close and Hook lane I would suggest that this consultation period is inappropriately short. I oppose any new development on the site on the grounds that it would have an exceptionally negative impact on the quality of life and tranquility of the existing and established firswood close community. Any new development would diminish the local habitat and bio-diversity, already reduced following the clearing of the site for survey purposes. Development in the proposed location would inevitably add to the merging of local villages resulting in a large and continuous conurbation and the destruction of the current green belt open space."/>
