Planning application no: S620101359MA

Dear Mr Manhertz,

As discussed on the phone on Thursday the 15/07/2010, I'd like to put forward my objections on DHL applying for planning on additional "tractor" spaces in their yard, our back gardens are literally a stones throw away from their main building, the traffic noise from their run's 24/6 right threw the night and day.

With the constant beeping of there fork lift's and at certain times of the early mornings lorries are leaving the depot thru out the mornings I'm assuming their main exit road run's between there main sorting yard and our back gardens.

I've swapped my children's bedroom with ours the second week I moved in four years ago, even myself have resorted to wearing ear plugs thru having sensitive hearing.

Please consider carefully on this application, even if it's only I objecting from Richards's street.

Look forward to hearing from you.

Yours sincerely

Simon Harvey
