

## SUSTAINABILITY CHECKLIST FOR HOUSEHOLDER APPLICATIONS

The overall aim of the District Plan for Welwyn Hatfield is to make development more sustainable in order to improve people's quality of life. This checklist has been drawn up to identify the things that could make householder development more sustainable. The intention is that this should be completed and returned with your planning application form. It will then be used by the Council in assessing whether your proposal is acceptable.

However, this checklist only covers sustainability issues. There will be other matters which the Council will need to consider, such as design, which are set out in the District Plan and in this document. In designing your extensions, buildings or alterations you should refer to the relevant policies and standards.

Applicants should be aware that if their house is a listed building or in a Conservation Area, some or all of the criteria may not be appropriate to their application. In such cases you should contact a Planning Officer at the Council to discuss the checklist.

Please state how your proposal addresses the following criteria:

1. Minimize any impact on the daylight, sunlight and privacy enjoyed by any

neighboring property.	
NONE	ACHECTED
<ol><li>Make best use of the sun's energy t room windows.</li></ol>	to reduce energy costs e.g. south facing living
	Nh
Maximize other opportunities for endouble-glazing or loft insulation.	ergy saving, such as cavity wall insulation,

the second with all levels of	
Design the building/extension so it is accessible for people with all levels of mobility, in particular people with disabilities, prams.	
LEVEL ACCES	
7. Use permeable materials for hard standings or parking areas to reduce surface	
water run-off and evaporation.	
N/A	
Install water-efficient fixtures and appliances to conserve water (e.g. special showers, taps, cistems) and equipment to recycle water (e.g. rainwater butts).	
WATEL BUTT TO BE FITTED TO RWP.	
Preserve existing trees, hedges and other natural features.	
None Affected	
10. Use landscaping and natural features externally which will increase biodiversity e.g. planting native species, or species attracting wildlife and including water features.	
N/A	

4. Use other sources of energy e.g. solar panels.

11. Use hedges rather than brick and concrete walls or fences as a means of enclosure, or soften the look of existing walls/fences with climbing plants.
AS EXISTING
12. Design the extension or building to include crime prevention measures e.g. avoid accessible flat roofs, avoid situating extensions/buildings close to footpaths, avoid solid fences giving easy access for burglars.
LOCHABLE DOOPS of Canoass
13. Minimize noise levels, and light and dust pollution during construction.
13. Minimize noise levels, and light and dust pollution during construction.  WORKS TO BE CARRYD OUT  WITHOUT PELAY
14. Considers the need for adequate storage for cycles and domestic recycling facilities.
WITH N EXUTING STORE / WARAGE.
The completed checklist should be returned with your completed planning application.
