Date: 26 November 2015 06:57:52

Further to your letter dated 19 November regarding Proposed Development at 17-17 Station Road, Cuffley my objections are still the same as before i.e.

Parking is more of an issue now than ever before, as householders in the centre of Cuffley are about to have put in place more parking restrictions, therefore new residential buildings of any sort erected in the centre of Cuffley need to come with their own parking spaces, which this proposal doesn't seem to have.

Putting a further takeaway in the centre of Cuffley where one is not needed and not wanted, will be attracting extra traffic where parking is in short supply and as there is no traffic warden on duty in the evening and at night to ensure that the parking restrictions are adhered to, this will lead to frustration and aggravation on everyones part. At the moment parking restrictions are infringed all the time in Maynard Place, hence bent bollards costing the Parish Council money.
