Comments	<p>I am objecting to this application due to the risk of noise disruption to residents in the area. It is far too close to residential property and not the best use of any spare land capacity within the ward. The reliance on Section 106 money calls this whole project into question, as this money must be spent in a way that benefits the community. In my view this application would only benefit a small number of people, mostly those who do not live in the area. The reliance of Sec 106 funds also calls into question the potential for this project to actually function as a going concern. This idea that the applicant would somehow be 'replacing' an airfield in Panshanger is inaccurate and presents more questions around sustainability. The airfield in Panshanger was closed, likely due to it not being sustainable – an important fact that this application does not address sufficiently. Those pursuing this aspiration should consider returning to the site allocated in Panshanger.</p>
