This is an application to take away the wide and varied benefits of this green belt area not only for this community but for the many walkers, dog owners, runners, cyclists, bird watchers, orienteers and families that regularly use these facilities. Not to mention all the

natural habitats and wildlife residents and the farm which homes a large beautiful herd of old English Longhorns here. There are already countless new housing projects completed and underway in Hatfield and this is area is our only accessible natural refuge. Lastly but not least this application is both legally and morally wrong as the land access was previously promised to local residents as part of a legal agreement to obtain permission for previous

extensive development.
