<b>Comments</b>	<input type="text" value="1. Traffic on the A1057 is already heavy and the proposed development will only add to that making the road more dangerous. It takes no account of the other substantial developments already begun or planned for the area such as housing on Oaklands College site, Comet Hotel redevelopment and mineral abstraction on the airfield site. 2. Having lived in the area since before the change of use of the airfield site to University, business park and housing I am deeply disappointed that the proposed Ellenbrook Country Park that was promised to us in a glossy brochure has not been delivered by the developers. Instead we are being threatened with more houses. I believe this park is essential to firstly create a health boosting sanctuary for the residents and secondly provide a Green Belt buffer between the burgeoning St Albans and Welwyn Hatfield towns."/>
