Comments	<input type="text" value="I object to this plan for the following reasons: It will severely cut down on the open space promised previously especially if the plans for mineral extraction are approved and will not comply with Section 106 agreement for the creation of the Country Park for local residents. The impact of the development of 1100 houses on the local traffic along with the increase noise, air and light pollution. Also such a large development poses a potential risk to our drinking water as it may disturb the bromate in the area causing to contaminate our water supply."/>
