Type of Comment	Objection
Type	Neighbour
Comments	<p>We would like to object to this application. It is the sheer volume of properties and land that this development will occupy means that the existing developments and infrastructure will be negatively affected. With the vast expansion of the Hatfield business park the roads are always rammed in the morning and in the evening rush-hour. This new development would only make this much worse. Also, the existing provisions such as buses, roads, hospitals doctors surgery's and schools are already below par for the planned developments around HAT1 and HAT2. How can the area cope with another 1500+ resident, their families, their cars, jobs and schools? There is nothing in the plan that makes the sacrifice of a beautiful area worthwhile and seems very poorly planned and does not take into consideration the needs and issues of existing residents.</p>
