Comments	<p>I find this proposal unacceptable and object on the following. There is a legal binding agreement section 106 in place from 1999 to provide a country park on this area of land. It appears the applicant wants to ignore this for their own financial benefit. There would be a massive loss of space which was intended to be available to local people for their well being and health, to enable them to be able to walk in green open spaces. There is always congestion around local areas with traffic volume, and the excessive amount from building, and then residential with 1100 new dwellings would make the amount of traffic rise to a level that the infrastructure cannot cope with. This would lead to traffic at a standstill with more fumes and gases around our local areas.</p>
