Comments	<input type="text" value="In year 2000 Arlington gave Ellenbrook Fields to the local community for use as a park for walking and wellbeing. A Sec106 was raised to manage this local park. The councils involved with Arlington, put it on the back burner and is only now coming to fruition after 18 years. If this committee had been created when it should have done, we would not now need to object to this proposal to build 1100 houses on our park. Arlingtons have gone back on their word to the community. The Local Plan, Hat 2 was rejected as it was too close to the proposed gravel extraction, which will be used for 32 years (also on our local community park) leaving us with very little park to use. Road exits on to Coopers Green Lane and the main road A1057 will create extra traffic and the whole area will become gridlocked. On this basis I most strongly object to this proposal."/>
