Comments	The initial agreement was to have the Ellenbrook fields country park which is still under construction but what is there is used regularly and also hosts a very successful parkrun which is nothing but a positive event for both community and health. Local residents have no other area of green space as Hatfield village is surrounded by main roads and industrial areas. The roads surrounding this area are already overloaded and with the new builds at Sandpit Lane, it will be absolute grid lock getting to or from Hatfield/St Albans. There are no added facilities in the area meaning leisure facilities (which if these houses are built, will mean only indoor facilities) will be overcrowded and parking non existent. Schools in the area are already massively oversubscribed. There is no need for more housing in this area. Stop polluting and look after your current residents.
