Comments	<input type="text" value="We strongly object to a build of 1100 new dwellings on green land which is valuable open space and a 'lung' for West Hatfield with the roads and motorways close by and the pollution vehicles produce. Ellenbrook Fields have provided a vital release for the people living on Salisbury Village and other surrounding areas. The area with wildlife, crested newts (special compound in Ellenbrook Fields) and the open space gives a good exercise area for residents who enjoy walking, cycling and running. It is wrong to build on this and take this area away from the existing population. Many existing properties in Salisbury Village are turned over to multiple occupation for students. Why isn't alternative dwellings made available in the Galleria to convert and allow existing properties to be returned for family use. The new builds will no doubt also be snatched up for students. Please do not allow this build to take place."/>
