| <b>Comments</b>           | <input type="text" value="I still object to using Ellenbrook fields for this development. When originally submitted we objected, as it is used by many residents and provides an open, healthy green space for walks/bike rides etc that people need for their health and wellbeing and has been particularly used recently, as it is easy to socially distance within the space. Also, the area is heavily populated already and this will only increase the traffic, parking, pollution and noise that exists already, without all of the additional infrastructure required as well. I do not see anything in the recent documents provided that changes my position on this."/> |
