Comments	<input type="text" value="I strongly object to this application because the proposed development will substantially increase road traffic in an already congested area that only has single carriageway roads. It also further overloads the local infrastructure and deprives the existing community of green space that it was promised when the Business Park development was agreed. To go ahead with the proposals in this area would be totally inappropriate and cause massive problems to the residents thereby substantially reducing their quality of life and wellbeing."/>
