Comments	<input type="text" value="The area in question should have now been designated as a country park and handed over to the community. Arlington have been dragging their feet on this for years trying to extract the most money out of the land they can. The addition of another 1000 plus homes will cause problems with the existing infrastructure. The local roads are already suffering with the existing traffic let alone more vehicles. The green space is a much needed oasis of calm with wildlife and plant life that will be lost if the development goes ahead. This green space is very much needed by the local community especially in the current circumstances where we are not allowed to travel to walk. The area is prone to flooding and the underground Bromide plume in this area should not be disturbed."/>
