| <b>Comments</b>           | <input type="text" value="The Government's Natural Capital Committee recognises the benefits to health, both physical and mental, arising from society's free access to open and natural space. These benefits have been accentuated in recent and current lockdowns. If this application is approved the profits will be internalised to the applicant and the costs (increased costs of physical and mental health care) will be externalised to the the wider community. The council should not be complicit in eroding further the natural capital which currently benefits so many."/> |
