Comments	<input type="text" value="Yet again there is more proposal for (if not digging up!) building and the destruction of the only public ecological park lands in Hatfield. Along with the unfair balance of housing within Hatfield, inadequate roads leading to congestion, noise and air pollution. More loss of green belt and (as needed at this moment) natural flood planes and wetlands for re wilding and conservation. Whilst I appreciate a shortage of homes. The devastating affect of more housing development will adversely impact on the already stretched public amenities across Hatfield. I strongly oppose this application."/>
