| <b>Type of Comment</b>    | <input type="text" value="Objection"/>  |
| <b>Type</b>               | <input type="text" value="neighbour"/>  |
| <b>Comments</b>           | <input type="text" value="Building in this area will result in the loss of Green Belt and PRIMARILY the loss of a much used public amenity space. It will compound the failure so far to provide Ellenbrook Country Park, as PROMISED in 2000. Please do not take our precious green space from us, it connects us with nature and benefits our mental and physical health and wellbeing. Building here will lead to the loss of our local ecology and biodiversity at a time in our lives that we need a connection with nature more than ever. Please note that there is also now an annual charge to all locals to walk in the grounds of Hatfield House meaning that building on Ellenbrook fields will have a huge impact. There will be an increase in traffic, noise and air pollution reducing the quality of life for all those in the locality as well as adding to the increase in possible flooding in the area. Please say no to this development and invest in a country park that will help improve Hatfield, more houses will not."/> |
