<b>Organisation</b>	<input type="text" value=""/>
<b>Type of Comment</b>	<input type="text" value="Objection"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="I watched the entire online final meeting for the gravel pit and an very confused by this application given that all of the negative reasons why the gravel pit was rejected apply plus much more. ie the gravel pits were unsafe due to the plume and this would affects residents if houses were built. The even bigger impact on the roads which are already over crowded. The lack of facilities and amenities. lack of schools. The loss of the area to everyone who use it in st albans and hatfield for recreation. Most people move to the Ellenbrook area due to the way it's surrounded by green belt. The continuous lack of consideration to everyone along the Hatfield road as to traffic lights because of lack of coordinated road works and path works causing tail backs for hundreds of metres on a regular basis. I could go on. I am very confused and can't find a single positive reason why this would be considered. Please enlighten me as I am gob smacked. [REDACTED]"/>
