Respond to: growth@hertfordshire.gov.uk

Dear Planning Officer

REVISED response by HCC's Growth & Infrastructure Unit to 6/2018/2768/OUTLINE Hatfield Business Park Frobisher Way Hatfield AL10 9SL

You will be aware that Hertfordshire County Council adopted new guidance in the form of the 'Guide to Developer Infrastructure Contributions' on 19th July 2021. Planning applications submitted on or after this date will be assessed and responded to against this revised guidance. Furthermore, if an existing planning application is not determined within the statutory time limits then HCC reserves the right to reassess the planning application and provide a revised response based on the new guidance. This application is currently undetermined.

Please see below revised contributions sought towards non-transport services to minimise the impact of development on Hertfordshire County Council Services for the local community. Based on the information to date for the development of **1100 dwellings** we would seek financial contributions towards the following projects:

HOUSES		
Number of Bedrooms	A) Open Market	B) Affordable (Social Rent)
1	0	0
2	243	20
3	147	44
4+	157	15
Total	547	79

FLATS		
Number of Bedrooms	A) Open Market	B) Affordable (Social Rent)
1	176	66
2	213	19
3	0	0
4+	0	0
Total	389	85

PLEASE NOTE; If the tenure or mix of dwellings changes, please notify us immediately as this may alter the contributions sought

Primary Education

We are aware that this site is not currently a proposed allocation in the Draft Local Plan (2013-2032). However, based on current information, if the site were to come forward for residential development, we would seek on-site primary school provision (both build costs and serviced land). Based only on dwelling numbers, it is estimated that this site would generate at least 2 forms of entry (2FE) of primary education. Additional primary provision to meet demand arising from new housing in Hatfield is proposed through provision of a new 2FE primary school at HS11. However, additional capacity may be required at this site as there is no further expansion potential at existing primary schools in the town. We consider that it is prudent to plan for additional capacity beyond 2FE in relation to this site, pending the on-going review of the Local Plan.

As discussion on the application progresses, further information on school costs can be supplied, which will be subject to indexation (index linked to BCIS 1Q2020)

Secondary Education

Based only on dwelling numbers, it is estimated that this site would generate at least 2 forms of entry (2FE) of secondary education. There is currently no available secondary expansion capacity in Hatfield. However, discussions are ongoing between WHBC and HCC regarding additional housing sites as part of the review of the Local Plan and the infrastructure required to support them, including secondary education. If WHBC are minded to support this application, then HCC would request proportionate secondary education contributions from this site towards new secondary school provision as a consequence of additional housing sites as the Draft Local Plan. This would need to be allocated towards provision of a sufficiently sized school at HAT1 or the New Barnfield new secondary school.

As discussion on the application progresses, further information on school costs can be supplied, which will be subject to indexation.

Childcare Service to be provided at the new Primary School-see Primary Education above £1,989,151 (index linked to BCIS 1Q2020)

Nursery Education included in the new Primary School costs-see Primary Education above.

Special Educational Needs and Disabilities (SEND) towards the New West Severe Learning Difficulty (SLD) School £869,592 (index linked to BCIS 1Q2020)

Library Service towards increasing the capacity of Hatfield Library or its future re-provision £289,089 (index linked to BCIS 1Q2020)

Youth Service towards increasing the capacity of Hatfield Young People's Centre or its future re-provision £196,306(index linked to BCIS 1Q2020)

Waste Service towards the development of the Recycling Centre at Tewin Road at xx or its future re-provision £136,653 (index linked to BCIS 1Q2020)

Monitoring Fees – HCC will charge monitoring fees. These will be based on the number of triggers within each legal agreement with each distinct trigger point attracting a charge of £340 (adjusted for inflation against RPI 1Q2021). For further information on monitoring fees please see section 5.5 of the Guide to Developer Infrastructure Contributions.

The CIL Regulations discourage the use of formulae to calculate contributions however, the County Council is not able to adopt a CIL charge itself. Accordingly, in areas where a CIL charge has not been introduced to date, planning obligations in their restricted form are the only route to address the impact of a development. In instances where a development is not large enough to require on site provision but is large enough to generate an impact on a particular service, an evidenced mechanism is needed to form the basis of any planning obligation sought. HCC views the calculations and figures set out within the Guide to Developer Infrastructure Contributions as an appropriate methodology for the obligations sought in this instance.

The county council methodology provides the certainty of identified contribution figures based on either a known or estimated dwelling mix, the latter of which might be agreed with the local planning authority based on expected types and tenures set out as part of the local plan evidence base. This ensures the contributions are appropriate to the development and thereby meet the third test of Regulation 122 of the Community Infrastructure Levy Regulations 2010 (amended 2019): “fairly and reasonably relates in scale and kind to the development”.

Please note that current service information for the local area may change over time and projects to improve capacity may evolve. This may potentially mean a contribution towards other services could be required at the time any application is received in respect of this site.

Justification

The above figures have been calculated using the amounts and approach set out within the Guide to Developer Infrastructure Contributions (Hertfordshire County Council's requirements) document, which was approved by Hertfordshire County Council's Cabinet 12 July 2021 and is available via the following link: [Planning obligations and developer infrastructure contributions | Hertfordshire County Council](#)

In respect of Regulation 122 of the CIL Regulations 2010 (amended 2019), the planning obligations sought from this proposal are:

(i) Necessary to make the development acceptable in planning terms.

Recognition that contributions should be made to mitigate the impact of development are set out in planning related policy documents. The NPPF states “Local planning authorities should consider whether otherwise unacceptable development could be made acceptable through the use of conditions or planning obligations.” Conditions cannot be used cover the payment of financial contributions to mitigate the impact of a development. The NPPG states “No payment of money or other consideration can be positively required when granting planning permission.”

The development plan background supports the provision of planning contributions. The provision of community facilities is a matter that is relevant to planning. The contributions sought will ensure that additional needs brought on by the development are met.

(ii) Directly related to the development.

The occupiers of new residential developments will have an additional impact upon local services. The financial contributions sought towards the above services are based on the size, type and tenure of the individual dwellings comprising this development following consultation with the Service providers and will only be used towards services and facilities serving the locality of the proposed development and therefore, for the benefit of the development's occupants.

(iii) Fairly and reasonably related in scale and kind to the development.

The above financial contributions have been calculated according to the size, type and tenure of each individual dwelling comprising the proposed development (based on the person yield).

PLEASE NOTE THE FOLLOWING:

Consult the Hertfordshire Fire and Rescue Service Water Officer directly at water@hertfordshire.gov.uk, who may request the provision of fire hydrants through a planning condition.

I would be grateful if you would keep me informed about the progress of this application so that either instruction for a planning obligation can be given promptly if your authority is minded to grant consent or, in the event of an appeal, information can be submitted in support of the requested financial contributions and provisions. Should you require any further information please contact the Growth & Infrastructure Unit.

Yours faithfully

Trish Lyons
Senior Planning Officer
