Dear Sir

APPLICATION REF 6/2019/0085/FUL

I wish to object to the above application.

The school has already been over developed and cannot cope with the existing parking and traffic problems. The school was designed for 500 pupils at a time when there was a good public transport service and most of the pupils came from within the area. Now there is in excess of 1000 pupils and the majority travel a considerable distance by car. The school is in a cul-de-sac with poor access to the main road and this has been the cause of many minor accidents and it is only a matter of time before there is a serious one!

No consideration appears to have been given to health and safety, pollution or the environment.

The majority of the additional pupils are coming from Hatfield area so it makes

Sense for the schools in that area to be developed.

The council should be planning for the long term future of Hatfield and locate a new school on a site closer to the population it serves

Yours faithfully
