---

Dear Sirs

I strongly object to the above planning application.

We live at the top end of Pine Grove before you get to the school road.

The parking problems in the road not just at school times (morning and afternoon) but through the day due to the very inconsiderate parking of parents, students and teachers is intolerable as a resident and getting worse as the older students became drivers.

We have two entrances to our house but we are only able to use one with great difficulty because of cars parked each side (often over the dropped kerbs) and on the opposite side of the road, To get out of our drive we have to pull out very carefully as visibility is very poor with cars parked on both sides of the road and then have to perform a manoeuvre of several turns backwards and forwards to avoid hitting the cars parked each side and opposite.

There have been several accidents outside our house and I understand outside many other houses in Pine Grove. There is very often road rage from drivers as the road becomes congested and often at a standstill. To clear traffic we have allowed cars onto our drive in order to clear the road.

If we need to go out or come back at school times we often have to ask people to move as they park straight across our driveway.

I have asked the school on many occasions to speak with students, teachers and parents in this regard but if they do then it does no good at all.

To consider expanding the school with little regard to additional parking is ridiculous and should not be allowed. 33 parking places would not alleviate the problems encountered now and will certainly be of no help if the school is allowed to expand.

Kind regards

**53 Pine Grove AL9 7BL**
