I would like to register the following objections to the proposed expansion of Chancellors School :-

Excess traffic is already at an unacceptable level in Pine Grove.  
Parking is a severe problem currently which will only increase if the site is expanded  
Residents are subjected to inconsiderate parking causing difficulties entering and exiting their properties.  
Parking on both sides of the road is a potential problem for emergency vehicles.  
Council maintained grass verges are being destroyed in pursuit of parking sites.  
Restricted parking conditions are working well in surrounding roads and consideration should be given to implementing similar restrictions in Pine Grove.

Despite Chancellors assertions that more parking spaces will be made available this will have little impact if pupil numbers will most certainly increase should the school be granted academy status.

The Government is legislating to reduce vehicular traffic and the emissions that creates and yet the school appears to give that scant regard.

The Herts County Council website(Education)indicates that there is no local need for expansion of school capacity in either Brookmans Park or Potters Bar and a surplus exists until 2021.
