**Comments** I object to this application on grounds of additional traffic along this cul de sac which is not designed to receive this volume of vehicles including double decker buses and coaches adding to noise and pollution of this area. I regularly observe the standstill of traffic as people attempt to drop off/collect students from the school and have heard substantial abuse from drivers as they are frustrated with poor driving etiquette of others. I have also asked several drivers not to use my private drive to complete a 3 point turn before they park outside the front of my house, usually in the afternoon as cars park on both sides. In winter, cars remain on the road, engines on for 15-20 mins adding to pollution. And why doesn't the council grit this road, the main route for most students, when it snows? Even the buses get stuck at the bottom of the road causing significant congestion and students walk up Pine Grove in inappropriate clothing as the bus cannot complete the route!
