Subject: Written objection chancellors School (server down on website) Chancellors school - REF 6/2019/0085/MAJ
Date: 13 February 2019 23:18:57

Please take this as a strong objection to the expansion plans to chancellors School on Pine Grove. AL9 Hatfield

The road is A single access point for the school -all coaches buses and cars / vans are already too much load.

This causes many accidents / road rage incidents.

Have witnessed Several incidents of children almost being hit by vehicles attempting to swerve each other on the residential double parked road!! Dangerous.

This would be irresponsible to put additional load on this street with no other ways for the traffic load to disperse endangering the wellbeing of the children and residents.

Also this is green belt land and not in keeping with the area. Most students are from surrounding areas so would it be wiser to develop the schools in Potters Bar and other areas which already have several entry / exit points to school sites.

These plans are dangerous - I object!
