Dear Sirs

I wish to submit further comments on the above Application, which replaced the earlier application 6/2018/2178/FULL.

In the earlier submission there was an Objection filed by Herts Transport Programme and Strategy which contains serious criticism of the plan from the overall transport viewpoint and reaches the conclusion that the development is ill-founded.

Although Herts Transport Programme and Strategy has submitted a view to the new Application 6/2019/MAJ which differs in content following the School's own documentary submission, it is my considered view that the earlier document's arguments against the development are still relevant and should still stand.

I therefore ask that this document be scrutinised in the assessment of the later planning application.
