I have revived a letter about the house behind me wanting to extend  
107 Eddington crescent Al74sx

I'm not at all happy with this and neither are my neighbours

The houses around here are already on top of each other I can hear everything and I can already see them in the bathroom when in my garden o [REDACTED] bedrooms what's already uncomfortable at times if there house gets any bigger or closer we might aswell live toghter and will have even less privacy in our own home

I believe somone has already been to next door and said it would effect my house the most because would be closest and also said we would be able to see everything from our gardens and back bedrooms surely this can't be ok

I don't mind them having there drive way done and if they want to extend up I don't think that would have much effect but I would suggest no windows looking direct into peoples [REDACTED] bedrooms ?  
How they can get there house any closer to mine and my neighbours or want to is just madness these houses have no privacy already and can't even sunbath or relax in you're garden becuae everyone can see you and hear kids screaming come summer even having our patio doors open you can see everyone around.  
Application reference 6/2019/0396/HOUSE
