TO WHOM IT MAY CONCERN,

I live at number 99 Eddington crescent AL7 4SX and have just been made aware today that the house at the bottom of my garden wishes to extend their house closer to my garden. I would like to appeal this and ask for it not to happen as the privacy of my garden will be effected. Their bathroom window already is situated right above my garden if it is moved even closer I will have no privacy left in my garden. I have no issue with the house being made higher, but do have an issue with it moving closer to my garden so that it will be right on my fence and overlooking my garden at an even closer distance. I look forward to hearing from you regarding this issue.

Many thanks

[REDACTED]
