**Received Date** 

**Attachments** 

Application Number	6/2019/1370/MAJ
Location	Land to the east of firs wood close, Northaw
Proposal	Erection of 26 dwellings and associated access
Case Officer	Mr William Myers
Organisation	
Type of Comment	Objection
Гуре	neighbour
Comments	I strongly object to this planning application for the following reasons. Firstly we need to protect our green belts and wildlife that live there. This application is not sustainable as Northaw has no train or bus service and walking to Potters Bar is dangerous in parts due to the lack of pavements which will result in the occupants using their cars to access work, schools, shops, adding to the already polluted air. Welwyn and Hatfield have declared to aim for carbon natural borough by 2030, this development will cause more not less pollution. The roads through Northaw are narrow, large commercial vehicles driving through the village will be damaging to the roads and historic buildings. The development will put local services under pressure. Schools, GP services, hospitals are overstretched. More houses will impact on these services further. Northaw is a small quaint historic village that should not be

allowed to be subjected to urban sprawl and join Potters Bar.
