To Whom it may concern,

I wish to question why anyone would consider building on the location of Firs Wood. This is a historic woodland with important cultural heritage in the area.

Not only will this completely ruin the scenery but you promote easy access to Cooper Lane road and Northaw which the buildings will sever.

Government targets on better air quality must also become an issue should this go ahead.

Not to mention, there is absolutely no infrastructure in Northaw for schools etc.

I cannot understand why Greenbelt areas have been put forward recently when all options for brown field sites are yet to be considered.

Regards
