Comments	<input type="text" value="This is on green belt land next to valuable wildlife sites and should be protected. WHDC declared to be carbon neutral by 2030,more vehicles will make this worse. There are no services supporting this area,you cannot walk safely to Cuffley /Potters Bar due to lack of pavements.Only other option is to cycle-not easy if you want to go shopping. Pollution is already too high,traffic congestion is already horrendous at peak times. This application violates national plan policy NPPF 2019 to protect the green belt."/>
