## Comment for planning application 6/2019/1370/MAJ

| Application Number              | 6/2019/1370/MAJ   |
|---------------------------------|---|
| Location                        | Land to the east of Firs Wood Close, Northaw  |
| Proposal                        | Erection of 26 dwellings and associated access  |
| Case Officer                    | Mr William Myers  |
| Organisation<br>Type of Comment | Objection   |
|                                 | Objection   |
| Туре                            | neighbour   |
| Comments                        | This proposal will result in an isolated development and be unsupported by any local infrastructure ( shops, schools, public transport or other required amenities). As such vehicular transport will be required by residents occupying the dwellings that will only add to the current high levels of polution already caused by constant through traffic between Potters Bar and Goffs Oak, and Enfield and Goffs Oak, with Cuffley in the centre. Building on precious Green Belt land will only serve to reduce the current national ability to combat a serious climate change issue, and at a time when we should be preserving as many open spaces as possible. I also understand that this site is nearby to a local wildlife habitat, which will no doubt be affected, and at a time when we should be doing all we can to protect such locations, and encourage wildlife to increase rather than be driven away from areas that are being eroded away by concrete jungles appearing, just to support housing statistics. |
