Comments	This is an extraordinary application. I totally object. It does not adjoin any other development; it will pollute and be bad for wildlife. I life in Northaw and already we suffer with a lack of transport and other essential services. Such a number of homes cannot possibly be accommodated. There really ought to be a filtering system to stop ludicrous plans of this type even coming to the consultation stage. I thought this was a Green Belt area, how can anyone think that it is suitable for a development. It really is ridiculous.
