.  
Dear Sirs,

Ref: RS1a

I wish to object to the above planning application.

Once again our green belt land is being considered for building, by your own definition it will have a high impact on the greenbelt.

There is no provision for infrastructure, no schools, no shops within walking distance which means that cars will need to be used for shopping, school runs etc. therefore more pollution in an already polluted area

Careful consideration needs to be given before this plan is accepted and I believe it should be rejected.

Yours sincerely
