1. The "Green Belt" was established for a reason, specifically to prevent this kind of development. 2. There is absolutely no reason why this development cannot be built on existing Brownfield sites, other than extra profit for the developers and WHBC - this is wrong, and dare I say corrupt. 3. Where are the schools? I've asked before about the need for secondary schools for Cuffley, well this location doesn't even have primary. 4. How will the occupants get to work, other than via car, thus creating yet more pollution in our countryside? They will need to drive to the already overcrowded Cuffley or Potters Bar stations. 5. Will a doctors' surgery be built on the estate? If not, where will the residents go? By the looks of the applicants, they are catering for residents who will be more likely to have medical requirements - so how is this being accommodated? 6. Surely this prime Green Belt location is home to all manner of wildlife, which I for one would not want to see evicted.
