**Received Date** 

**Attachments** 

Application Number	6/2019/1370/MAJ
Location	Land to the east of Firs Wood Close, Northaw
Proposal	Erection of 26 dwellings and associated access
Case Officer	Mr William Myers
Organisation	
Type of Comment	Objection
Гуре	neighbour
Comments	Objection to this proposal as it is green belt land and there are no special circumstances for the proposed development which is contrary to NPPF and a stand alone development and will have a huge impact on the current pleasant rural street scene. There are no amenities There are no shops within the close vicinity and cars will need to be used to access these and schools further afield as the local primary school is oversubscribed and there are no senior schools close by, the stations in Potters Bar and Cuffley are not within walking distance and this vehicular movement will add to the already polluted atmosphere that is a silent killer (we need rural locations to breath which is what the green belt was originally for) and not

along this very busy road where vehicles travel at high speeds.

every stage of life. Walking along Coopers Lane Road is suicide as there are no footpaths
