Location	Land to the east of Firs Wood Close, Northaw
Proposal	Erection of 26 dwellings and associated access
Case Officer	Mr William Myers
Organisation	
Type of Comment	Objection
Гуре	neighbour
Comments	access to the close impacting heavily on Hook lane residents. It will create pollution and noise in a quiet rural location of outstanding beauty. The road infrastructure struggles to cope with traffic currently along Coopers Lane Road and The Causeway. There is s safeguarding issue with regards to excessive traffic along the causeway with schools and children crossing. This development is not sustainable. It is a remote location, green belt, cars would be essential - pollution. insufficient parking allocated and when the weather is icy or it snows all vehicles are parked at the top of firswood which blocks the road and entrances. The plans submitted around parking to accommodate the houses are insufficient. The area of outstanding beauty will be diminished by virtue of the volume of cars/traffic/pollution. This development does not enhance the vitality of the area in-fact it diminishes and will cause a huge impact on the landscape and residents in Hook lane and
