PLANNING

13, Firs Wood Close
EN6 4BY

14/7/19.

Ref: 6/2019/1370/MAJ

To whom it may concern.

I am writing to lodge my objections to the planning permission for 26 houses to be built in Firs Wood Close - site R51a.

I understand a previous planning permission for one house was turned down for several reasons, so I fail to understand why planning permission would be even considered for 26 houses, surely the same reasons would still apply.

This is a quiet beautiful close and could only be spoiled if this goes ahead.

There is a lot of wildlife here and this would surely be threatened.

Where would sewer works be installed?

Where would cars for 26 houses park?

What about pollution & congestion?

I also understand it violates the National Planning Policy Framework 2019, protecting the Green Belt.

I would urge you to reject this application.

Thanking you.

Yours Sincerely
