I can't believe this application can even be considered. This is surely Green Belt land, and therefore is completely unsuitable to be 'developed' in this way. This would make such a considerable change to the whole view and nature of the land around this area - with this development, will obviously come more cars adding to traffic, need for other amenities, dust carts collecting rubbish, etc, all making this beautiful countryside less attractive. It will start with this, what you will call, 'low number' of houses, which will just be the catalyst for more building in surrounding fields, as it will no doubt be attractive for struggling farmers. WE DON'T NEED HOUSES THERE!! WE DON'T WANT HOUSES THERE. PLEASE REJECT THIS APPLICATION. Its just an easy way the owners can get their hands on easy cash - it's not

being done for the good of the surrounding, the local people, the community, and simply not doing any good to our environment.
