Hi Will,

Apologies for not getting back to you sooner.

I have taken a look at the information provided and it is considered sufficient to discharge the arboricultural aspect of the condition.

Let me know if you have any queries.

Kind regards,

Oilly

Hi Oilly,

Please can I ask that you take a look at the above application and let me know your thoughts? Please note that I have found that Appendices 1-8 are missing from the submitted documents so I have chased these with the applicant and I will hopefully have them shortly.

Please be aware that the proposed determination date for this application is tomorrow 12th May.

Cheers

Will

Hi Will,

I have taken a look at the Arboricultural Method Statement and Tree Protection Plan with regard to the above planning condition. Interestingly there are two AMS reports in the documents from two different companies. I have assumed the most recent report, dated February 2020 by Pyramid consultancy, is the main report.

The information provided within the report is considered appropriate and sufficient to protect the trees throughout the development process. The information provided is considered sufficient to discharge the Arboricultural aspects of this condition.

If you have any queries let me know.

Kind regards,

Olly
