.  
Hi David,

I hope you are well.

I have just discussed the issues raised in my email below with David (copied into this email) and I am satisfied that apart from one issue (the lack of turning area at the back of the temporary car park, which can be addressed by removal of the two last spaces from the plans), all of the other matters have been satisfactorily addressed (most of them relate to the plans which have already been approved as part of the previous application, i.e. zebra crossing, bus tracking, etc). I would therefore like to withdraw my previous objection.

Ania
