<b>Comments</b>	<input type="text" value="The height of the blocks will dominate the town and block the view of historic silos at the heart of WGC history. I note they state the silo are equivalent to 11 blocks high and the tallest tower is 10... however to see silos top you'll probably need to be standing 2 km away and will only be able to see 1/11th of a tower which you can currently see 3/4 of. This are not blocks of flats but Towers of which are suited to WGC"/>
