<b>Comments</b>	<input type="text" value="Welwyn Garden City is not the place to have buildings of 10 storeys high anywhere. The are one anything like this height. It does not fit in with the whole ethos of the Garden city and the beauty of the town. On this site in particular the idea is ludicrous as it negates the whole idea of preserving the towers as a historic landmark. The maximum building height should be no higher than 3 or 4 floors anywhere on this site, no higher than the original factory building."/>
