Organisation	<input type="text" value=""/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="In Welwyn Garden City, there are no tall buildings of such height, it is completely obviously against the whole ethos of the 'garden city'. It should be completely self evident that a 10 storey building is absolutely out of place. It would very adversely effect the whole town, which is world renown for its'layout and architecture. It is also completely wrong in its location so close to the centre. Do not ruin the layout of a wonderful & beautiful town that so many are rightly so very proud of, by adding such buildings. This should be so self evident. It is also very important that what is built there has room for each flat to have a place for an electric car to be charged. That is the transport of the future. The buildings there will stand for many decades to come and it is, so, so important that these buildings are suitable for the surroundings and buildings of anything like 10 storeys high are so completely unsuitable and misplaced in this location."/>
