Comments	<input type="text" value="This proposal is in conflict with everything Welwyn Garden City stands for. The scale and density of the site is offensive to the town itself as well as residents who take great pride in living here. I am astound that a monstrosity like this has been designed and put forward by an Architect. This is not a proposal that anyone should be proud of. An approval for this project would be the greatest tragedy for our town, however, I believe our Local Authority and Estate Management will stay true to the values, history and vision of our town and modernize it delicately, with good taste and sensitivity this town deserves. The current proposal unfortunately is none of those."/>
