Organisation	<input type="text" value=""/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="As a resident of the area for 20 years after moving from London to raise our children in a more rural environment I could not be more disappointed that such an application would even be considered. Not only does it betray the original vision of Ebenezer Howard's Garden City design but such high density housing without the proper infrastructure in place to accommodate the additional population would be disastrous to the existing residents' ability to access existing schools, social and health care. Looking out from our garden onto several high rise blocks of flats is not what I had in mind for my family when I moved away from London."/>
