Comments	<input type="text" value="We have had architect visitors from the other side of the world who came because of the significance of Welwyn Garden City, a city in a garden; they didn't come to see high rise, dense housing with inadequate space, inadequate parking and few green areas, all squeezed in, upsetting local views and equilibrium. We need housing, but not this; and where are the new schools, doctors' surgeries and other infrastructure. Please don't take this terribly short term decision, and by doing so, wreck the town. We already have examples of new houses in WGC crammed in with inadequate parking and no green spaces, bad job, please don't repeat it."/>
