Comments	<input type="text" value="As the next door neighbour I have concerns in two areas. First I do not like the siting the solar panels. They would be the first in this conservation area and would be very visible from the road, to the detriment of the environment. Second, I cannot understand the need for six roof lights, three on my side of the house. This number seems unnecessary and excessive for one bedroom, one shower room and a study area. I have had a friendly discussion regarding my reservations with Ruth Luxford"/>
